

Create a New Model

base model:

final model: `models/NewModel.mdl`

- 1 Open the graphical user interface alaska/ModellerStudio using windows start menu or with double click on `ala_md1.exe` in the bin folder of the alaska installation
- 2 In the menu bar select **File** > **New Model**
- 3 The following dialog will open:

- ④ Select with left mouse button `"Multi Body System"`
- ⑤ Give a name for your model. This tutorial is named `"NewModel"`
- ⑥ Adapt the path and location of your model file
- ⑦ Click on
- ⑧ A new model file is automatically saved to the given path and filename:
`NewModel.mdl`
